IPVPN: The Secure Way to Connect

Break down geographical barriers by efficiently connecting your global workforce in a secure and reliable way, enabling smooth collaboration, enhanced productivity, and security.

DConnect IPVPN allows you to connect to your branch and office confidently across the globe. It provides the advantages of having your private IP network without the cost and maintenance of network infrastructure. Our extensive network of Points of Presence (PoPs) ensures the constant protection of your data.

Experience the seamless integration of our IPVPN solution, breaking down the barriers of distance and fostering a connected global workspace that transcends physical boundaries, ensuring your business operations thrive in an interconnected and secure environment. Trust DConnect for a future-ready, globally accessible solution that adapts to the evolving needs of your business.

Benefits

Guarantee Flexibility

Provides the flexibility to add and remove sites, adjust bandwidth, and modify security policies as needed.

Global Connectivity

Ability to connect offices and partners around the world with a secure and reliable private network.

About DConnect

Welcome to DConnect Global, your premier network service provider dedicated to delivering unparalleled connectivity and driving digital transformation.

We offer premium internet services that empower businesses and enterprises through our innovative Network-as-a-Service (NaaS) wholesale and white-labeled product – a first-of-its-kind in the industry. With DC Gateway, we enable efficient interconnection of diverse Autonomous Networks using open APIs.

At DConnect Global, we specialize in delivering Internet Services, Global Connectivity, and Telco Automation, designed to streamline your operations and fuel your success in the digital realm.

Enhanced Data Security

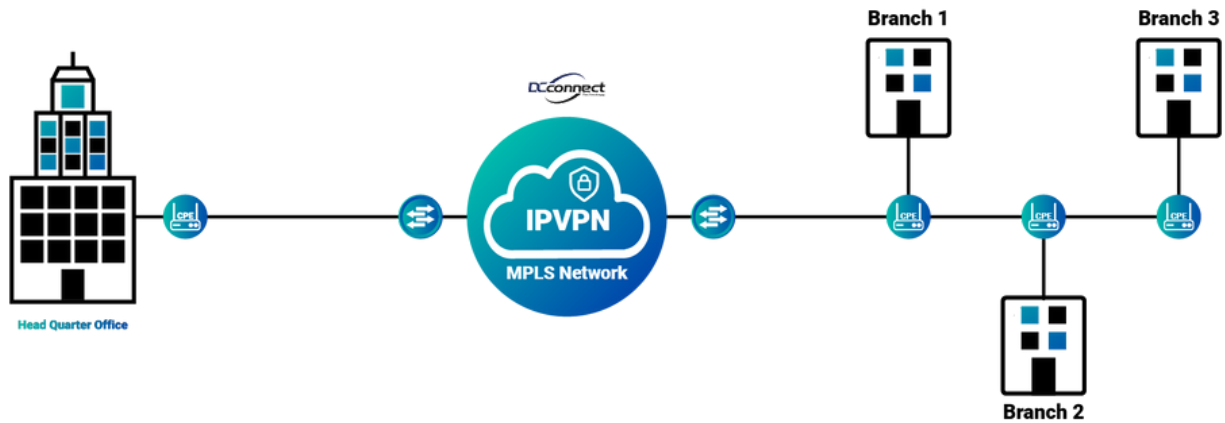

Comprehensive suite of security features to safeguard data from unauthorized access, theft, and loss.

Centralized Management

Configure, monitor and troubleshoot IPVPN devices from a single location.

IPVPN Topology

DConnect's IPVPN establishes a secure and efficient network infrastructure, connecting various locations within your business network. Utilizing advanced technologies like MPLS (Multiprotocol Label Switching), our IPVPN ensures seamless data flow from your business headquarters to other branches.

Technical Specifications

Service Parameter	Description
Network Type	MPLS (Multiprotocol Label Switching)
Security Features	Encryption, private IP addresses
Reliability	High availability, redundancy
Bandwidth Options	Flexible, customizable
Protocols Supported	IPsec, BGP, MPLS
Global Coverage	PoPs in key regions worldwide
Customer Support	24/7 Network Operations Center (NOC)

Let's Work Together

Your business deserves the best connectivity solutions, and DCConnect is here to help you achieve those goals. Let's work together and find the right solutions!
