

Remote Peering

Connect With The World's Leading Peering Partners

The background of the cover features a view of the Earth from space, showing the curvature of the planet and the dark void of space filled with stars. Several glowing blue lines represent data paths or network connections, arching across the globe. The text is overlaid on this background.

Remote Peering
Datasheet

Remote Peering: Broaden your network reach with remote peering to multiple global IXPs

We connect you to over 10 IXs (and growing!) worldwide, providing you with the flexibility to expand your reach as your business evolves, you'll experience accelerated performance, reduced latency, and significant cost savings. Our streamlined process eliminates the hassle of multiple contracts, allowing you to focus on growing your business.

Connect directly to the world's most popular exchange points through our network. We simplify your peering experience by combining transport and port access into a single, convenient solution. With a single contract with DCConnect Global, you cover everything you need—no substantial infrastructure investments or multiple agreements required. We handle all the complexities, ensuring your network is fully integrated at the IX without the need for physical presence.

About DCConnect

Welcome to DCConnect Global, your premier network service provider dedicated to delivering unparalleled connectivity and driving digital transformation.

We offer premium internet services that empower businesses and enterprises through our innovative Network-as-a-Service (NaaS) wholesale and white-labeled product – a first-of-its-kind in the industry. With DC Gateway, we enable efficient interconnection of diverse Autonomous Networks using open APIs.

At DCConnect Global, we specialize in delivering Internet Services, Global Connectivity, and Telco Automation, designed to streamline your operations and fuel your success in the digital realm.

Benefits

Reduced Cost

Save on infrastructure expenses. Eliminate the need for costly colocation space, hardware, and ongoing maintenance by leveraging our remote peering solution.

Expand your global footprint

Access a wider range of networks and content providers through our extensive network of PoPs and IX connections.

Enhanced Flexibility

Adapt to changing needs, easily scale your network up or down as your business grows, without the constraints of physical infrastructure.

Accelerate content delivery

Benefit from reduced latency and improved network performance by connecting to multiple IXs through our optimized network.

Simplified Management

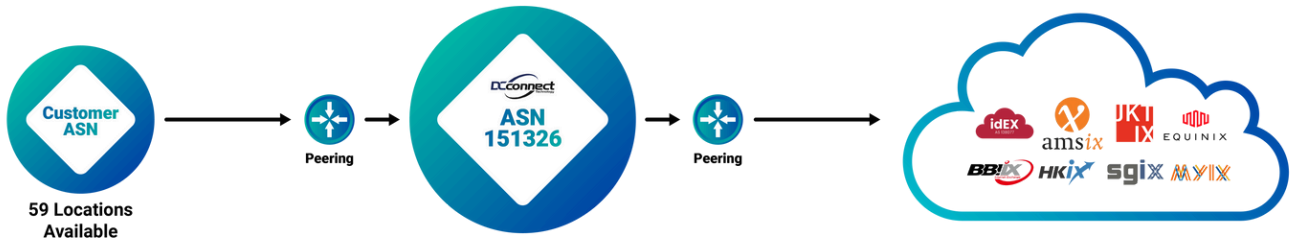

Manage your peering relationships through a single platform, reducing administrative overhead and complexity.

Faster Time to Market

Accelerate your time-to-market by rapidly establishing new peering connections without the delays associated with traditional methods.

Remote Peering Topology

How Does It Work?

By establishing a virtual connection between your network and the desired IX, we eliminate the need for costly colocation space, hardware, and ongoing maintenance. Our platform handles all the technical intricacies, from provisioning to configuration, allowing you to focus on your core business.

You simply connect to one of our PoPs via a cross-connect. From there, we provide the necessary infrastructure and connectivity to seamlessly integrate your network with the selected IX. Our advanced peering platform ensures optimal performance and reliability by intelligently routing traffic and managing peering sessions. With DCConnect Global Remote Peering, you gain access to a vast ecosystem of networks, enabling you to optimize content delivery, reduce latency, and enhance overall network performance. This simplified process eliminates the need for multiple agreements, reduces operational overhead, and accelerates your time to market.

Our Network of Internet Exchange Peering Partners

DCConnect leverages an expansive network of global partnerships to create one of the largest peering hubs worldwide. This enables access to new peering opportunities within a broad community of Internet Exchange (IX) partners on a global scale.

Key Locations and Global Presence

IXP	Life Sites	IXP	Life Sites
SGIX	Singapore	EIE	Singapore
AMSIX	Singapore	MYIX	Malaysia
IDEX	Indonesia	HKIX	Hong Kong
JKTIX	Indonesia	BBIX	Singapore

Let's Work Together

Your business deserves the best connectivity solutions, and DCConnect is here to help you achieve those goals. Let's work together and find the right solutions!
